ABOUT ME

Building experiences, not just websites

I am a passionate frontend developer dedicated to creating intuitive, dynamic, and highly performant user interfaces. My approach blends rigorous engineering principles with a keen eye for design aesthetics.

Whether it's architecting a complex single-page application or crafting a pixel-perfect landing page, I focus on delivering scalable code and seamless user journeys.

PORTFOLIO

Featured Projects

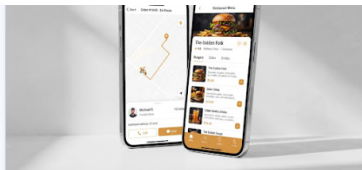

E-Commerce Platform

A full-stack e-commerce solution featuring secure checkout, real-time inventory, and an intuitive admin dashboard.

Next.js Tailwind Stripe

Food Delivery App

Responsive web app for a local restaurant chain with live order tracking and user profiles.

React Firebase

Analytics Dashboard

A comprehensive data visualization dashboard handling large datasets with interactive charts.

Vue.js D3.js

CONTACT

Let's Build Something Great Together

I'm currently available for freelance work and open to full-time opportunities. If you have a project that needs some creative engineering, I'd love to hear about it.
